Fall Testing:

To prepare for fall testing, please make sure your child is practicing math facts as well as reading every evening. I will be reading one-on-one with the students in the next couple of weeks for benchmarking. We will also take our second round of math facts. If you need suggestions on how to study, please let me know 😊 I know testing will go great!

Literacy: Nonfiction has been the focus this week. The students have been asking and answering questions with informational text. Next week we will work on main idea and key details.

Math: Unit 2 is off to a great start! 😊 We are busy working on addition strategies to help us solve problems.

Language: This week's focus was compound sentences using the conjunctions and, or, or but. We combined simple sentences together to make compound sentences.

Spelling: This week's spelling pattern was silent-e. This will be the focus for another week of spelling.

The students have started with their weekly homework. Nightly work should include:

1. Studying spelling words.
2. Twenty minutes of reading and completion of reading/homework log.
3. Studying math facts.
4. Math Home Links

:Specials:

Day 1- Music
Day 2- PE
Day 3- Art
Day 4- PE

Library- Fridays
